

Who works with whom – overview

All roles of the Lighting Operations System and how work passes between them

DIMO

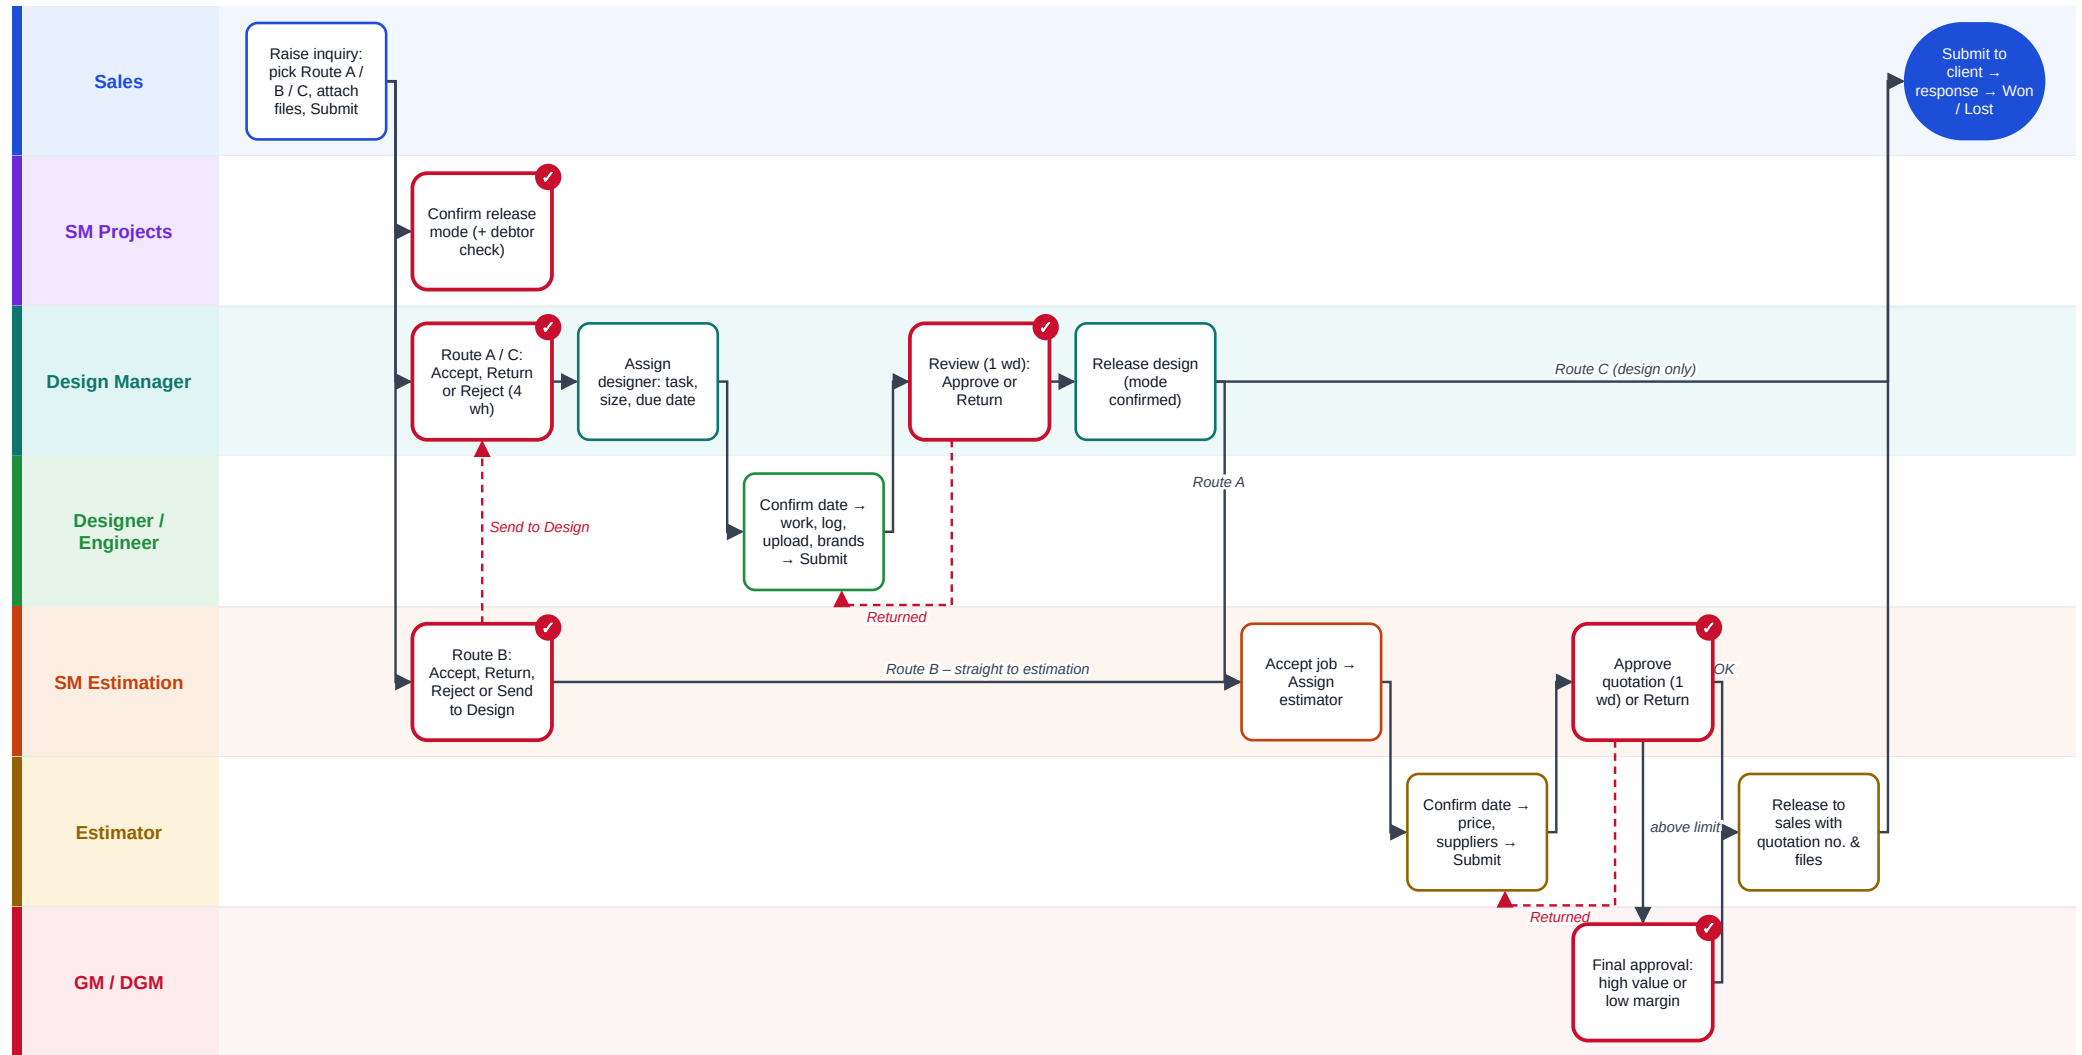

Sales raises every inquiry. SM Projects confirms how results are released; Design and Estimation each **accept** → **assign** → **review** → **release**; GM / DGM approves only exceptions (high value, low margin, mixed duty, targets). Operations runs debtors and samples alongside.

□ Action □ Decision / approval ✓ ● End result → Next step - - - - - Returned / sent back wh = working hours · wd = working days (Mon–Fri 08:30–17:30, excluding holidays)

Inquiry flow – Design and Estimation (Routes A, B, C)

From the sales request to the quotation or design reaching the client

DIMO

Route A design → estimation · **Route B** estimation only (BOQ / spec available) · **Route C** design only. Any manager can **Return for information** (the clock pauses and sales is notified) or **Reject** with a reason. SM Estimation can send a Route B inquiry to Design, turning it into Route A.

□ Action □ Decision / approval ✓ ● End result → Next step - - - - - Returned / sent back wh = working hours · wd = working days (Mon–Fri 08:30–17:30, excluding holidays)

Approval chains – who approves what

Every approval in the system: who raises it, each approval step in order, and the result

DIMO

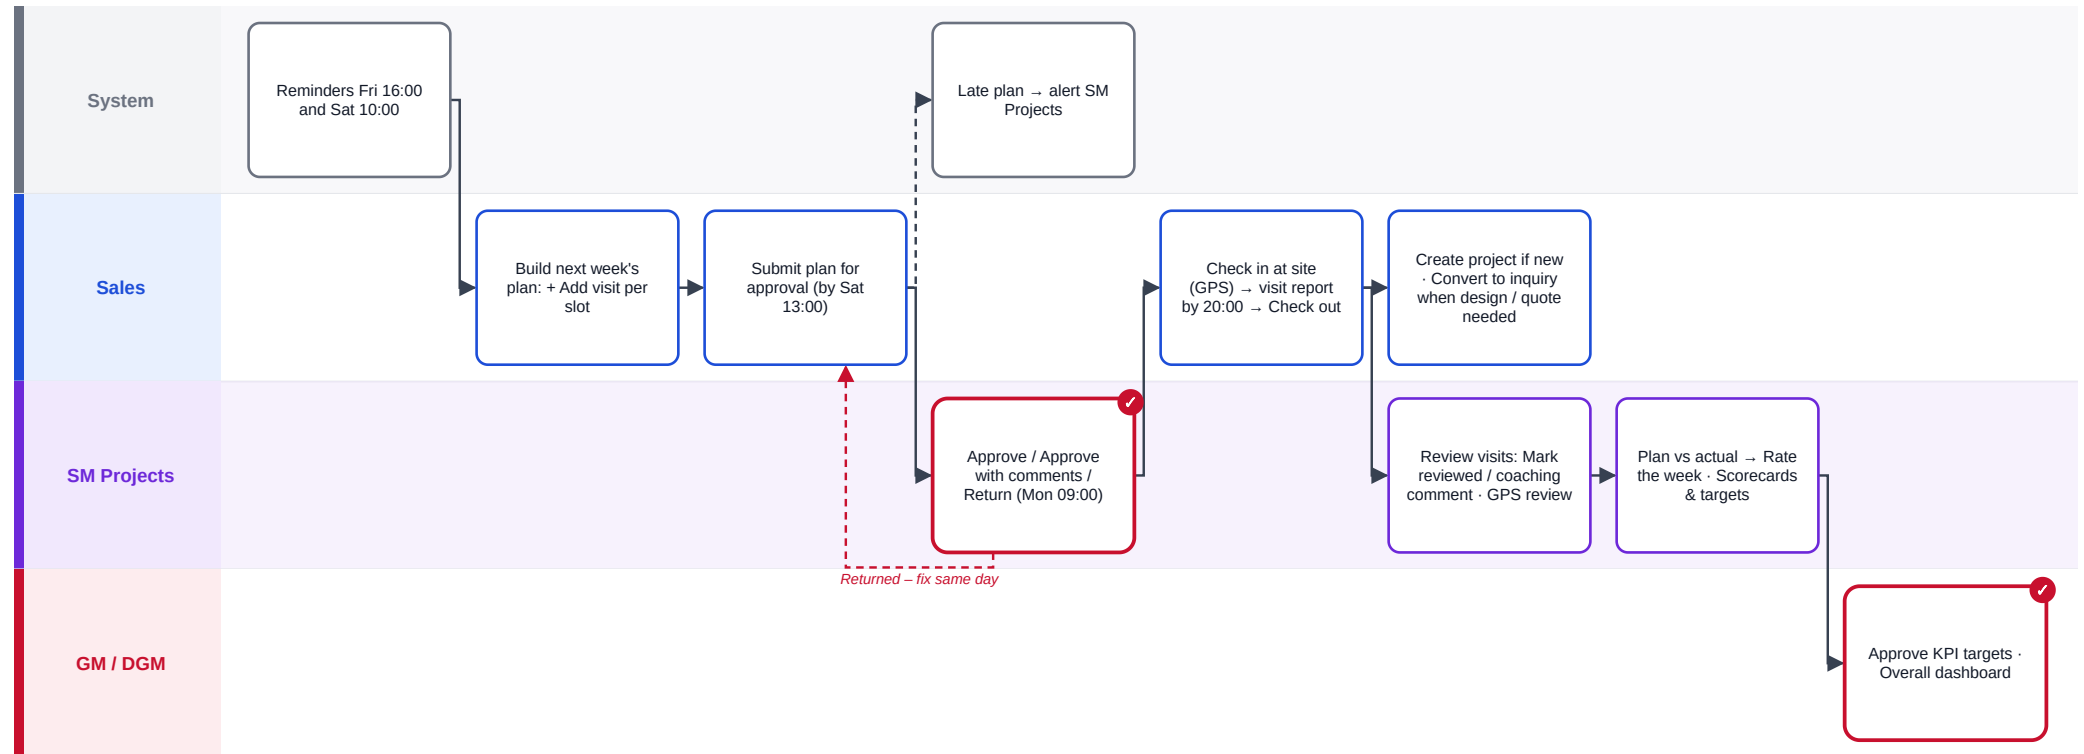

All approvals appear in the approver's **Approvals** tab with a push notification. Returning or rejecting always needs a reason, and every decision is logged. Value limit and margin floor for GM / DGM approval are set by the System Administrator.

Deadlines and escalation ladder

Every job has one owner and one due date; the clock counts working time only

Standard targets

Step	Owner	Target
Accept / assign a new inquiry	Design Manager / SM Estimation	4 working hours
Confirm due date on an assigned job	Designer / Estimator	4 working hours
Design work	Designer / Engineer	Small 3 · Medium 5 · Large 10 working days
Design review · Quotation approval · Clarifications	Design Manager · SM Estimation · Designer	1 working day each
Weekly plan submit / approve	Sales / SM Projects	Sat 13:00 / Mon 09:00
Visit report	Sales	Same day by 20:00
Debtors upload	Operations	Every Saturday (alert if missing by 22:00)

Green – on track Amber – 75% used or due within 1 wd Red – overdue Grey – on hold (clock paused)
