

THE ORDER TO ENTER DATA

Customer → Project → Weekly plan → Check in at the visit → Visit report → Inquiry → Keep the project up to date. Button names are shown like **this**; menu paths like **Projects → + New project**.

DAILY ROUTINE

Morning: check **My Day** · At every visit: **check in** · By 20:00: **finish visit reports** · Saturday 13:00: **submit next week's plan**.

1 Add the customer (once per organization)

Customers → + New customer

- 1 **Organization name, Type (visit category), Phone and Head office address.**
- 2 **First unit / department** (optional), e.g. "Engineering Division".
- 3 **Contact** (optional): **Name, Designation, Phone and Email**.
- 4 Tap **Create customer**. If **Possible duplicates** appear, tap **Use this** on the matching customer instead.

2 Create the project

Projects → + New project (or from inside a visit – see step 4)

- 1 **Project name** as *Customer – Project – City*, e.g. "ABC Hotels – Beach Resort – Galle".
- 2 **Project type**: only your own types are listed.
- 3 **Customer** (use **+ New customer** if it is missing), **City, Location / address**. Optionally tap **Use my current location as the site**.
- 4 **Stage and value**: **Project stage, Duty status** (sets LKR or USD), **Estimated project value** and **Estimated lighting value**.
- 5 **Project term (mandatory)**: enter **Expected duration to order / award** in months. The term is suggested automatically; changing it needs a reason.
- 6 Tap **Create project**. If a similar project exists, tap **Use this project**, or confirm it is a different project and give a reason.

3 Plan next week (submit by Saturday 13:00)

- 1 **Plan → Open next week's plan**.
- 2 Tap **+ Add visit**: choose the **Day, Time slot**, Normal or **Tender**, the project, the customer, **Visit category** and **Planned objective**. Tap **Add to plan**.
- 3 Repeat for every visit, then tap **Submit plan for approval**. SM Projects approves it or returns it for changes.

4 On the day – check in at the site

- 1 On **My Day** tap **Check in** next to the planned visit (details fill in automatically). For a visit that was not planned, tap **Check in to a visit**.
- 2 Allow location access. GPS is recorded only at check-in and check-out.
- 3 Choose **Normal** or **Tender**, the **Project**, the customer, **Visit category**, **Primary objective** and up to 3 **Secondary objectives**.
New project? In the project search tap **+ Create project**; after saving, the app returns to the visit with the project selected.
- 4 Either tap **Check in (report later)**, or fill in the report now and tap **Save visit report**.

5 Visit report (same day, by 20:00)

- 1 **Discussion summary** (at least 30 characters – the keyboard microphone can be used) and **Outcome**.
- 2 **Competitors mentioned**, **Brands specified**, **Estimated project value** and **Estimated lighting value**.
- 3 **Next action** and **Next action date**.
- 4 Tender visit: **Tender activity**, **Tender number** and **Closing / opening date**.
- 5 Add photos or documents if needed, then tap **Check out and save report**.

6 Raise an inquiry (design or quotation needed)

On the visit tap **Convert to inquiry**, or on the project tap **+ Inquiry**.

- 1 **Project and customer**: already filled in.
- 2 **Route**: design + estimation, estimation only, or design only.
- 3 **Scope**: **Scope description**, **Areas / spaces**, **Design scope** and **Tender or submission type**.
- 4 **Client solution expectation**: **Solution level**, **Preferred brands**, **Manufacturing origin**, **Budget indication** and **Approved makes list**.
- 5 **Dates**: **Customer deadline**, **Design required by** and **Quotation required by**.
- 6 Tap **Save draft and continue**, attach drawings and the BOQ, then tap **Submit inquiry**.

7 Keep the project up to date

- 1 On the project page update **Stage**, **Win probability** (a reason is needed outside the normal range), **Award date** and **Lighting value**.
- 2 Answer **Review status** prompts for dormant projects: active, on hold, lost or cancelled.
- 3 Follow up the quotation and record the result: won or lost.

+ Also during the week

- **Reschedule**, **Cancel** or **Missed** on planned visits – a reason is required and every change is logged.
- **My Debtors**: add follow-up comments on overdue customer payments.
- **Samples**: request samples and return them on time.
